The Rievent Platform™

The Complete Solution for Continuing Education

Rievent is a pioneer in the development and deployment of Continuing Medical Education and Patient Education technology delivering best-of-breed Software-as-a-Service (SaaS) solutions.

Rievent provides a comprehensive, turnkey, continuing education, cloud computing platform unmatched by competition. The platform is designed specifically for continuing medical education beyond what a traditional learning management system (LMS) can provide. Build, manage, and deploy comprehensive educational activities with measurable outcomes that meet or exceed medical accreditation standards.

Extensive reporting, drill down, and data analysis tools are balanced with simple and powerful industry required reports. Rievent includes Program & Activity Reporting System (PARS) features to make tracking and reporting on ACCME PARS data an integral and seamless part of the Rievent Platform™.

The Rievent Platform™

The Complete Solution for Continuing Education

Rievent has experience and a track record of success from single activities to enterprise-level integration, custom configuration, and development. Contact us to find out how easy and affordable it is to make Rievent your CME/CE technology partner.

Rievent was founded in 2000 and delivered its first CME activity offering *AMA PRA Category 1 Credit™* in 2002. Since then, Rievent continuously improves and advances the Rievent Platform™, and has provided continuing medical education to hundreds of thousands of healthcare professionals recording millions of survey, test, and evaluation results via an intuitive and polished learner experience.

Features

Reporting and Data Analysis

- ▶ Comprehensive real-time on-demand data consolidation, access, and reporting
- ▶ ACCME compliant reporting including PARS
- ▶ Filtering options for fine-grained analysis
- ▶ Per-activity or aggregate reporting options

- ▶ Comprehensive live WebEx training courses
- ▶ Seamless, secure and transparent integration with customer portals or websites

Rievent has experience delivering continuing medical education for live activities, enduring materials, Journal-based CME/CE, and Performance Improvement (PI) CME/CE.

The image displays several screenshots of the Rievent Platform interface. The top screenshot shows the 'Program Reports' section for '270304 Workflow', with a 'Question' table showing results for three items. The middle screenshot shows the 'ACCM Program and Activity Reporting System (PARS)' form, detailing activity information like title, type, and credit hours. The bottom screenshot shows the 'Manage Your Program' interface for 'RD09: Multiple Sclerosis', displaying a list of registrants with columns for name, status, reservation code, and attendance.

Reports

- ▶ Test, Survey, and Evaluation responses
- ▶ Test question accuracy and analysis
- ▶ Test, Survey, and Evaluation pivot reports
- ▶ Detailed credit reports
- ▶ Outcomes comparison reports
- ▶ Aggregate reports across all activities
- ▶ Activity attendance analysis, including participation by profession, specialty, date, and geographic location
- ▶ Activity use by day of the week and by hour of the day
- ▶ Manual data entry totals
- ▶ Activity recruitment summary
- ▶ ACCME PARS export, ready as XML for ACCME upload
- ▶ Complete data export of all activity metrics and profile data as comma separated value (.csv) file
